I have experience in developing and maintaining software applications for various industries in the Philippines. Skilled in working with databases, APIs, and software development tools. My experience also includes collaborating with cross-functional teams to deliver high-quality software solutions on time and within budget.

Work Experience

Software Engineer

Tropang True Po

January 2020 – Present

- Created an automated testing framework that reduced testing time by 50%
- Collaborated with cross-functional teams to troubleshoot and resolve technical issues, resulting in improved customer satisfaction

Back-End Developer

Truesdays

March 2014 – December 2020

- Designed and implemented new features on a cloud-based platform increasing user engagement by 25%
- Conducted testing and analysis for a new product launch

DevOps Engineer

Kalayaan National Bank

June 2012 – March 2014

- Conducted research and development to improve product performance and efficiency by 20%
- Created technical documentation and provided training for end-users
